

4. QB - loops in java [for loop]

Use for -loop to solve following programs -🚀

1. Write a program to print all natural numbers from 1 to n (n is a user input).
2. Write a program to print all natural numbers in reverse from 100.
3. Write a program to print tables by taking user input.
4. Write a program to print reverse tables by taking user input.
5. Write a program to print all alphabets from a to z.
6. Write a program to print reverse alphabets from Z to A.
7. Write a program to print all even numbers between 1 to 100 using if condition.
8. Write a program to print all even numbers between 1 to 100 without using if condition.
9. Write a program to print all odd numbers between 1 to 100 using if condition.
10. Write a program to print all odd numbers between 1 to 100 without using if condition.
11. Write a program to find sum of all natural numbers between 1 to n.
12. Write a program to find sum of all even numbers between 1 to n.
13. Write a program to find sum of all odd numbers between 1 to n.
14. Write a program to find the factorial value of any number.
15. Write a program to find the value of one number raised to the power of another.🌟
16. write a program to reverse the given Digits.🌟
17. Write a Program to Check Given Number is a Palindrome or Not.🌟
18. Write a Java program to display the cube of the given number up to an integer.

Test Data

Input number of terms : 4

Expected Output :

```
1 Number is : 1 and cube of 1 is : 1
2 Number is : 2 and cube of 2 is : 8
3 Number is : 3 and cube of 3 is : 27
4 Number is : 4 and cube of 4 is : 64
```

19. Print 10 stars vertically.
20. Print 10 stars horizontally.
21. print 5 stars horizontally with one space in each star.

22. print 5 stars vertically with one space in each star.

“Practice, Practice, Practice! Musicians don’t only play when they are on stage in front of an audience.” — Michael Toppa
